Sir

Subject - Levy of water rate by the Bhadravati Municipality

In forwarding herewith report No 203/36-37 dated the 27th July 1937 from the President, Bhadravati Municipal Council submitting for sanction the proposals of the Municipal Council to levy a general water rate, I have the honour to state as follo-ws -

2 The Municipal Council have now provided 12 taps to the residents of the old town and have been supplying water obtaining the same from the Iron Works water plant The quantity of water at present supplied is 26,000 gallons per day As this supply is insufficient there have been complaints from the people, who are praying for the improvement of the supply Some more taps have also to be provided to other parts of the town Arrangements have been made to obtain an increased supply of 50,000 gallons of water per day from the Iron Works authorities and to provide 12 more taps in different localities The initial cost of the distribution by provoding lines etc comes to Rs 3436/- and the estimate prepared by the Iron Works authorities has been forwarded to the Director of Health for obtaining the sanction of Government The Municipal Council have make a lump-sum payment of Rs 2000/- per year to the Iron Works authorities for the supply of water against Rs 600/- per annum which they are now paying. In order to meet a portion of the maintenance charges, the Municipal Council propose to levy a general water rate at 4 annas per rupee of the tax on buildings and lands The annual demand of the tax on buildings and lands is about Rs 2240/- and if the water rate is levied at 4 annas on this, the annual income which the levy of the water

brings to the Municipality will be about Rs 560/-, while the Municipal Council have to spend Rs 2000/- per annum Hence the proposed levy will not be in any way unreasonable or oppressive The President reports that the necessary formalities were observed and that no objections have been received

2 In the circumstances, I request that sanction of Government may be kindly obtained to the proposal of the Municipal Council to levy the water rate at the rate proposed The tax may be ordered to be levied with effect from the second half of the current year

3 As regards the levy of Lighting tax referred to in the President's report, he will be instructed to take necessary further action to levy the same, as it does not require sanction of Government

I have the honour to be,
Sir,
Your most obedient servant,

Deputy Commissioner
Shimoga District

SIR

Subject Levy of General Water rate in the Bhadravati Municipality

Referring to correspondence ending with your letter No L 2655/M 73-37-13 dated the 11th September 1937 to the effect that the annual income by the levy of proposed water rate at 4 annas in the rupee would bring in only Rs 560/- and enquiring how the Bhadravati Municipality propose to meet the balance of the amount payable to the Mysore Iron Works, I have the honour to state that it is reported by the President that it is proposed to levy rate at Rs 2/- per month for each house connection and that it is estimated that about sixty house connections will be taken The balance of the amount payable to the Iron and Steel Works could therefore be met from the income to be derived by the levy of the General Water rate and the tax to be recovered from house connections

The records connected with the subject received from the President are enclosed

I have the honour to be
Sir
Your most obedient servant,

for Deputy Commissioner
Shimoga District
(absent from Headquarters)
